

## **WATER SECURITY POLICY**

Considering Sustainable Development Goals 6 (Clean Water and Sanitation), 7 (Affordable and Clean Energy), 8 (Decent Work and Economic Growth), 9 (Industry, Innovation, and Infrastructure), 12 (Responsible Consumption and Production), 13 (Climate Action), 14 (Life Below Water), 15 (Life on Land), and 17 (Partnerships for the Goals), we are committed to embedding these principles into our business strategy across all locations.

Limak Renewable Energy works collaboratively with all stakeholders to fulfill its commitments responsibly, ensuring alignment with sustainability goals and promoting responsible practices throughout its operations. In this respect, we are committed to

- Identifying and assessing water-related risks
- Managing water-related risks in light of the best available techniques
- Prioritizing responsible consumption
- Protecting ground and surface water from pollution resulting from our activities
- Treating all wastewater for the protection of freshwater ecosystems and the environment
- Monitoring treated discharge water quality by conducting third-party testing
- Supplying safely managed Water, Sanitation and good Hygiene (WASH)
- Training our employees on water security issues
